EDUCATION

MS Engineering Design Innovation | GPA 3.96
Northwestern University
EXPECTED MARCH 2022

Introduction to Architecture | GPA 4.0
Columbia University
AUG 2019

PhD Neurobiology
McGill University, Dr.
Tomoko Ohyama Lab
SEPT 2018 ADMIT

**BS Neuroscience, minor
Dept of Afroamerican &
African Studies** | GPA 3.4
Michigan Tradition
Scholar for Academic
Achievement
University of Michigan
MAY 2015

HS Diploma | GPA 10.3
Cum Laude
Phillips Exeter Academy
MAY 2011

SKILLS

Consumer Journey Maps
Ethnographic Interviews
Hand Sketches
Motion Videos
Models/Prototypes
Shop Trained
Storyboards
Technical Drafts

TOOLS

Adobe Creative Suite
AutoCAD
Figma
Microsoft Office Suite
Mural
Python

PROJECT EXPERIENCE

Mather Chat | Mather Foundation Human-Centered Service Design Studio
JAN 2021 TO MAR 2021

Created a research informed connection-driven digital learning platform, Mather Chat, to help the Mather seniors age well in their community. Presented weekly developments to Mather team advisors. Conducted reviews of existing resources and tested designed platform before delivering final assets.

Wander | Arity, LLC. Human-Centered Interaction Design Studio
JAN 2021 TO MAR 2021

Applied consumer research methodologies to principles of digital interface and interaction design to develop key modes and features within a travel app, enabled by Arity data. Implemented iterative design sprints to research, concept, prototype and user test solutions. Curated final pitch deliverables and portfolio for client.

EvrChill™ | Making Things: Manufacturing & Materials Selection Studio
JAN 2021 TO MAR 2021

Observed consumer behavior to probe for kitchen needs. Implemented frameworks to organize insights and identify the root issue. Conducted market and patent research. Sketched, rendered, and user tested tabletop cooler appliance designs. Conceptualized a business model in consideration of value proposition and line extensions.

Hero | Procter & Gamble Human-Centered Product Design Studio
SEPT 2020 TO DEC 2020

Conducted three rounds of consumer interviews to identify pain points and desired experience of grooming product use. Developed journey maps and frameworks from insights to highlight tensions. Performed iterative prototyping and presented final product.

SoundSk8 | Architectural Design Studio
JUNE 2019 TO AUG 2019

Designed an immersive, playful experience exploring the scale of sound, informed by site research. Presented work to external juries representing world-renowned firms. Learned contemporary design process with curriculum in architectural history, theory and practice.

WORK EXPERIENCE

Experience Designer J&Co. Hair Studio
MAY 2019 TO SEPT 2020

Ensured customer satisfaction by curating a positive salon experience. Redesigned service experience and the built environment for customers and employees to interact safely and efficiently during COVID-19 pandemic. Fabricated seasonal installations at several scales.

PhD Student Researcher Dr. Tomoko Ohyama, McGill University Dept. of Biology
SEPT 2018 TO APRIL 2019

Developed 3D image reconstructions of neural circuitry involved in escape behaviors across fruit fly species that showed varied response to nociceptive stimuli. First year Neurobiology Grad Student Representative. Graduate Excellence Award in Biology. Harald Hess Lab Visiting Student Researcher, Howard Hughes Medical Institute (HHMI).
